INTERACTIVE FEATURES

This Water Journey™ features the following technologies that are unique to Vortex.

1 PUMP (1)

- To release the water into the Water Journey™ system
- Each pumping action releases a small amount of water and with persistent pumping the amount of water increases to a breaking point.
- Powder coated stainless steel
- Can be a point of connection to other Water Journeys™

2 FOOT ACCELERATOR (4)

- Press to inject more water into the channel to increase flow or from the basin to create a vortex
- Made of stainless steel and lead-free brass

3 STRAINER (2)

- Control and transform the water flow
- Resistant and durable polyurethane

4 SLUICE (1)

- To steer the water flow and change its course
- Resistant and durable polyurethane

5 DRAWBRIDGE & LOOP (2)

- Manipulate up or down to let the water or the floating objects pass
- Resistant and durable polyurethane

6 DRAIN BASIN (1)

- Can be a point of connection to other Water Journeys™
- Painted stainless steel and glass fiber reinforced colored concrete basin
