## Export product

We manufacture and distribute all kinds of games and urban furniture for both public and private spaces.

Our company offers a wide variety of innovative recreational and exercise products for public, commercial, and residential use.

Our technical team is constantly working on the design of products which are manufactured under the highest standards of security. These products feel spaces with harmony and leisure.

We are the only company in the country and field to have the IRAM ISO 9001 certification.

info@crucijuegos.com - [www.crucijuegos.com](http://www.crucijuegos.com)

All our products are designed and produced ONLY by our manufacturing plant. This way, we can offer the best market price.

THE BEST QUALITY  
AT THE BEST PRICE

Crucijuegos was founded in 1992 because of the cities' necessity to have safe and attractive games, which invited neighbours to enjoy common spaces.

Our vision was to create and develop eye-catching recreational equipment, specifically adapted for every space and for the entire family. The objective is to encourage outdoor activities and healthy habits.

All our lines of products are developed according to the European Standards EN1176 and EN71, American Regulations ASTM and CPSIA, and ISO Standards 9001 -and where tested to guarantee their long durability.

Our head office is located in Rosario (Argentina), and we have a technical and commercial work team in constant development, dedicated to address our clients' different needs. This distinguishing factor allow us to reach countries such as Brazil, Chile, Spain, Colombia, Mexico, Paraguay, Bolivia, Peru, Ecuador, El Salvador, Dominican Republic, and Uruguay.

# Special Projects

At Crucijuegos we always try to highlight the creativity and functionality of the public spaces' games. This is why we launched a new field that stands out not only for its materials designs and innovative concepts, but also for designing the game hand-by-hand since the beginning with our clients.

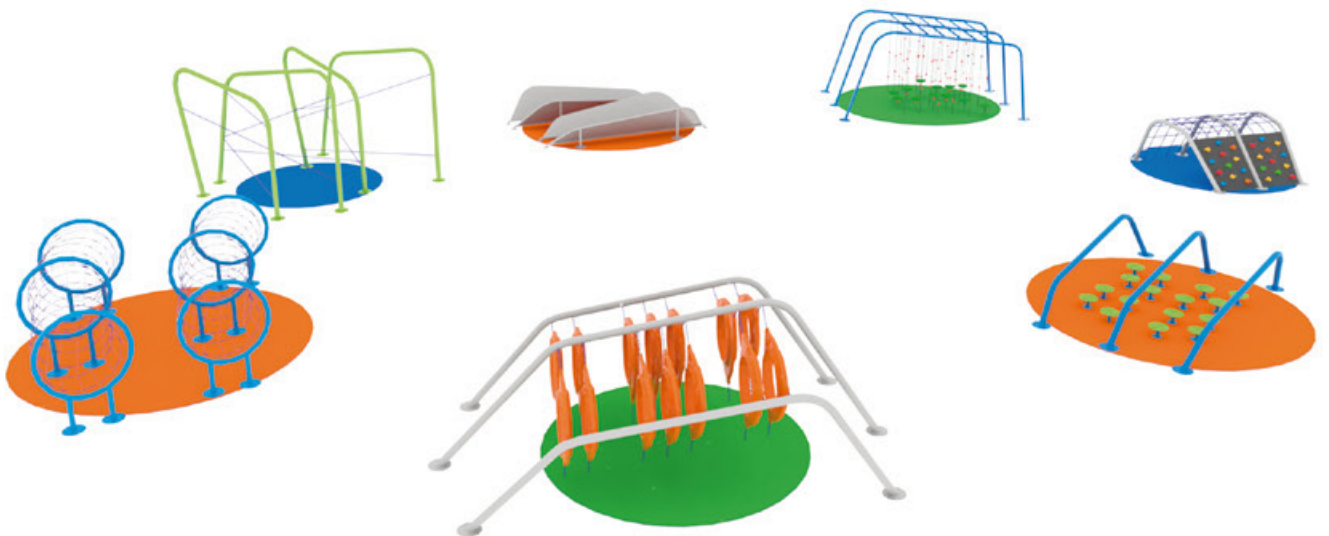

# The Challenge

**Location: Parque del Bicentenario de la independencia -  
San Fernando, Buenos Aires.**

The Challenge proposes 7 relays with different difficulties where two children can compete, while going through each challenge. Climbing and balancing stations allow the user to develop their own skills.

# Nautical Park

**Location: Parque del Bicentenario de la independencia -  
San Fernando, Buenos Aires.**

This park was born out of the need to represent the importance of the nautical sector in Municipio de San Fernando. To accomplish this, we designed a series of fun games which reference the key elements of this activity, such as Mangrullo Sailboat, the Optimist, a dock and islands filled with attractions, flowers and games.

# Tiny City

**Location: Parque del Bicentenario de la independencia -  
San Fernando, Buenos Aires.**

Miniature city with the most iconic public buildings in the entire Municipality. Fire Truck, Police Station and Hospital are conceptual and amorphous designs where children can find different ways of playing between firefighters' tubes, slides, connections, memory panels and more. These tiny houses can be adapted to different spaces, and they come with traffic signs and themed trees.

# Mangrullo Freddo

**Location: San Miguel de Tucumán.**

Freddo's ice-cream parlor theme park, where children can play in a giant version of the brand's classic ice-cream jar, going down the slide and climbing melted scoops of ice-cream. The space also has underground connections, memory panels consisting of different images of the brand's products, crawling tube, climbing holds and different slides.

# Volkswagen Van

**Location:** Cariló.

The Volkswagen Van is the newest model of the brand, the Buzz model. Thanks to the game, both children and adults get to meet and experience the newest van design, while sharing and enjoying the experience with their families.

Posee sensores que dispersan agua en forma de pequeñas gotas como un vaporizador.

# The Yrupe

Location: Parque de las Colectividades - Rosario, Santa Fe.

An experimental playground that combines aesthetics and functionality. Metal structures with great sculptural value which are combined with a playful area where children can play different games, and not only become aware of how to protect the nature and the environment but also get to know the different types of fish that inhabit the Paraná River.

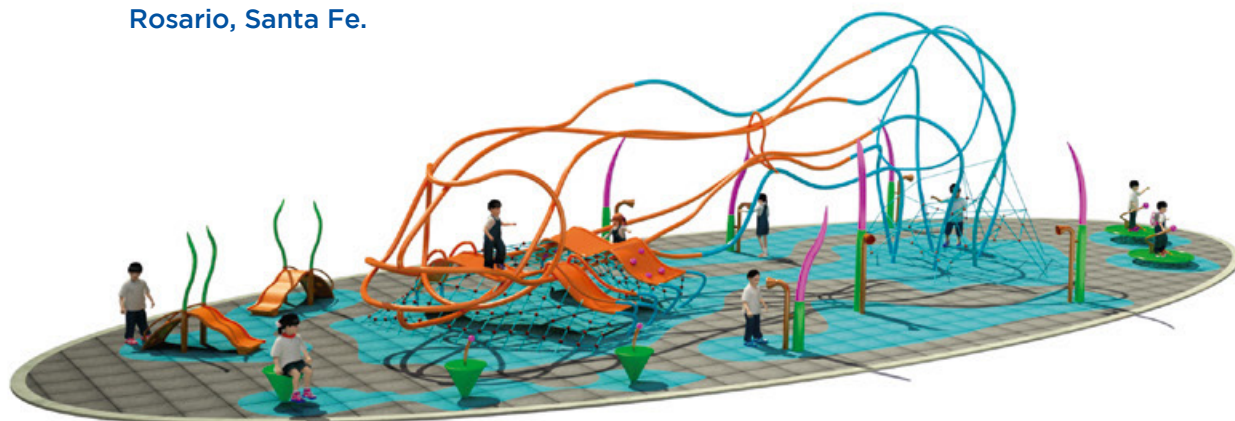

# El Dorado

Location: Parque Scalabrini Ortiz -  
Rosario, Santa Fe.

We have designed and developed this theme park in order to raise awareness in the community about how to care for the flora and fauna and to share knowledge, especially with children.

# Fire Truck

Location: Tigre, Buenos Aires.

This initiative was first introduced by the Municipality of Tigre, which asked Crucijuegos for the designing and making of a themed game to pay tribute to the local volunteer firefighters.

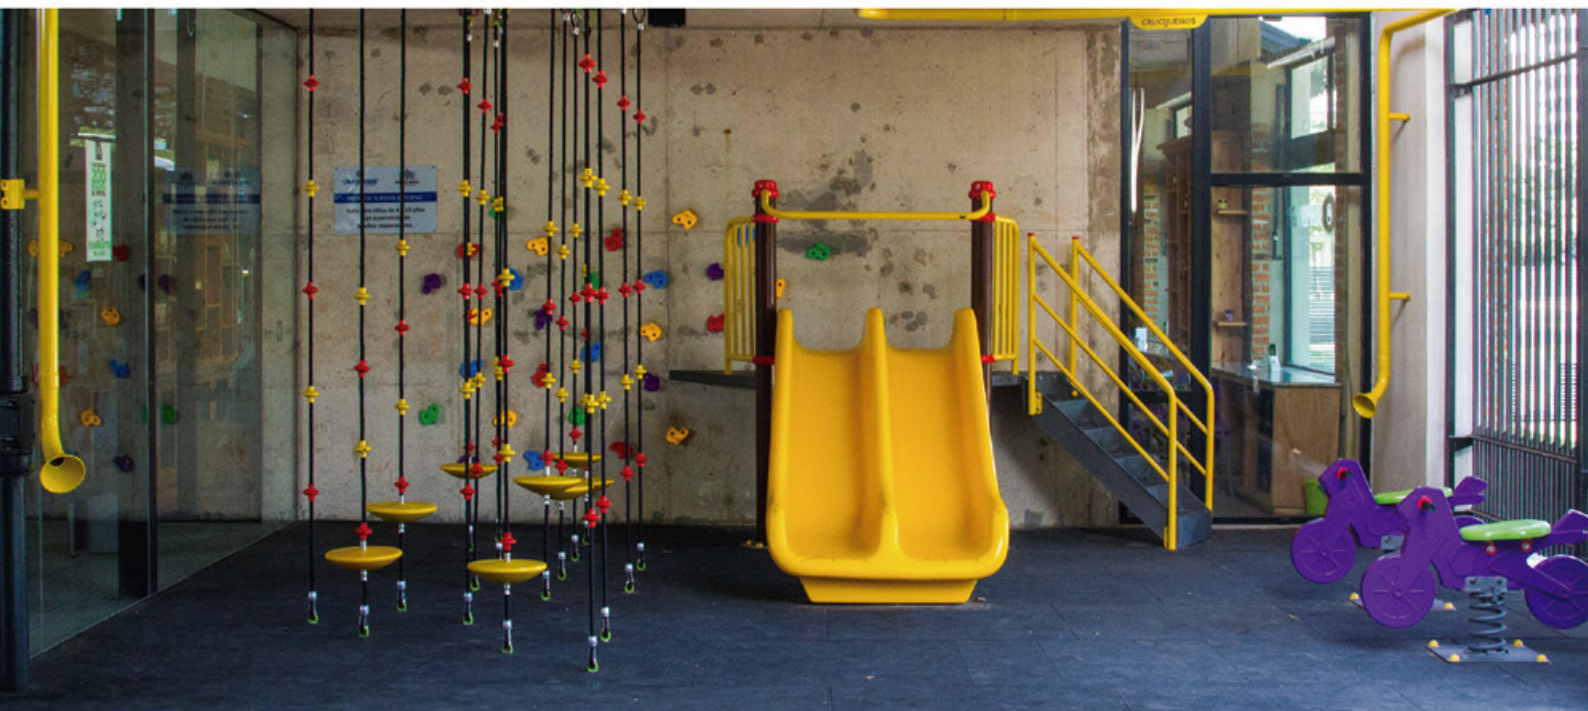

# Paraná's Galleon

**Location: Plaza de la salud, Paseo costero - San Lorenzo.**

Thanks to the port activities (among others), the idea of creating a thematic ship game became real. The Crucijuegos design team worked on the creation of a ship capable of catching children's attention.

This new game is over 10 meters long and has room for more than 30 children at the same time. Slides, climbing ropes, tunnels and carrouzels are some of the Paraná's Galleon's sections.

# Indoors Playground

**Location: Mercado del Patio - Rosario. Santa Fe.**

This project was born from the need to add a playground inside the new Mercado's venue -a different gastronomic walk in Rosario. An intervention was made in a 40m2 area, where it was made the most of the architecture to transform it into games. Vertical ropes with steps were set up on

the foundation slab, and one of the walls was used as the support structure for the double Slide. The pipes and tubes, which are typical of industrial buildings, were used as connections hanging from the slab.

# Pringles Little Square

Location: Plaza Pringles, Paseo del siglo -  
Rosario, Santa Fe.

This project was part of the Paseo del Siglo remodeling, in downtown Rosario. Where once was a sandpit and playground it was designed an innovative fun equipment, exclusively created for

this project. It was installed on anti-shock rubber surface. The out of the box range of colors gives a peculiar and distinctive touch to the little square, without losing its characteristic patrimonial style.

📍 Paseo de las Américas

📍 Parque Saavedra

📍 Roque Saenz Peña

# CABA Squares

Throughout the year 2019, we worked on different city parks, adding value to the children's playgrounds. Some of the highlights are Parque Alverdi, Parque de los Patricios, Paseo de las Americas, Plaza Garay, Plaza Almagro, Plaza Vicente Lopez and Roque Saenz Peña.

ages 4 to 12  5 m x 5,7 m x 4,9 m

### Small Fairies Castle

 6 people  
ages 4 to 12  5 m x 5,5 m x 3,9 m

## Themed children's games

Children's games designed for recreational spaces

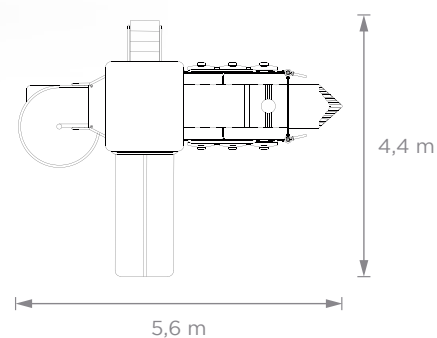

### Little Train • Art. 20038

7 people  
ages 4 to 12  2,9 m x 4,4 m x 5,6 m

## Little Train

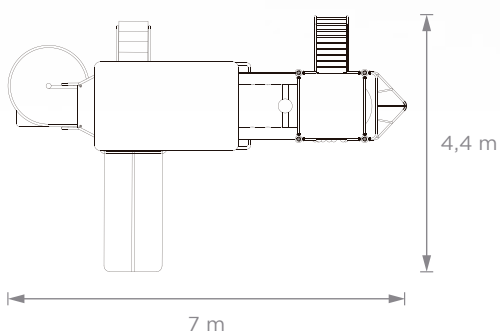

Themed game in the shape of a train, especially designed for squares and public parks. A double slide or helical drop slide can be used to descend. It also has climbing disks on the sides and a crawling tube.

### Locomotive • Art. 20040

12 people  
ages 4 to 12

 4,4 m x 7 m x 3 m

## Locomotive

Themed game in the shape of a locomotive, especially designed for squares and public parks. It can be accessed using two sets of stairs. It can be descended using a double slide or a helical drop slide. It also has three crawling tubes, a Tic Tac Toe panel, and an infographic themed panel.

## Wagon

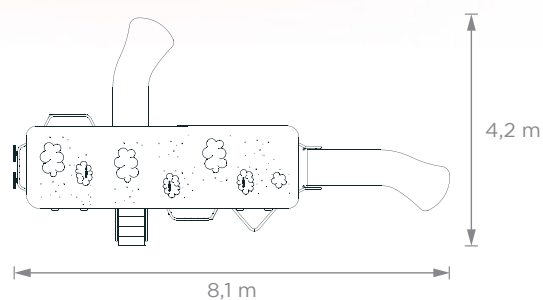

16 people  
ages 4 to 12

3 m x 4,2 m x 8,1 m

## Wagon

Themed game in the shape of a train wagon, especially designed for squares and public parks. It can be accessed by stairs and climbing holds. On its inside, it has climbing disks and steering wheels. It can be descended by going down a fire pole or curved slides of different heights. Also, it has rotomolded sits and communicators in its external and internal parts.

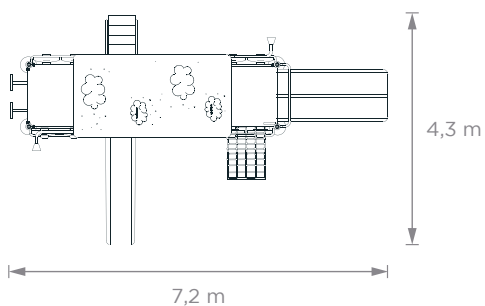

## Inclusive Wagon

 Inclusive Game

16 people  
ages 4 to 12

3 m x 4,3 m x 7,2 m

## Inclusive Wagon

Themed game in the shape of a train wagon, especially designed for squares and public parks. It has a memory panel, a tic tac toe panel, communicators, and steering wheels in the exterior, so wheelchairs users can have access. It also has a simple and double slide and climbing nets. On the inside, it has rotomolded sits and a sign language panel to learn the dactylography alphabet.

## Themed children's games

Children's games designed for recreational spaces

### Police Station

Themed Mangrullo in the shape of a police station. It has a double and roller slide. Inside there is an infographic themed memory panel. At the bottom of the structure there are communicators. It can be accessed by stairs and nets.

#### Police Station

• Art. 20055

10 people  
ages 4 to 12

3,6 m x 3,5 m x 7,2 m

### Fire Station

Themed mangrullo in the shape of a fire station. Inside there is a roller slide and infographic themed memory panel. At the bottom of the structure there are communicators, steering wheels, and a crawling tube.

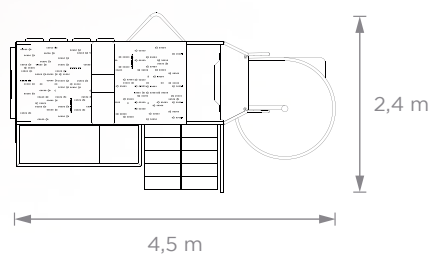

#### Fire Station

• Art. 20056

7 people  
ages 4 to 12

4,1 m x 2,4 m x 4,5 m

## Hospital

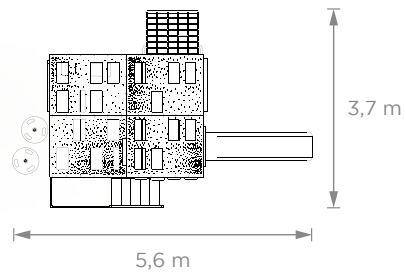

Themed mangrullo in the shape of a hospital. Children can enter using a rope net, play with an infographic themed memory panel, and descend by going down a slide. It also has climbing steps and a crawling tube.

### Hospital

• Art. 20057

8 people  
ages 4 to 12

4,5 m x 3,7 m x 5,6 m

### Tree • Art. 20056

3 m x 1,2 m x 1,3 m

## Tree

Decorative tree for themed playgrounds. It helps create the setting of the playground. It generates partial shadow. Made in metal. Ideal for the resting area.

### Traffic Signals Kit

• Art. 20060

1,5 m x 0,5 m x 0,3 m

## Traffic Signals Kit

Traffic signals kit is a complement to the Tiny City themed playground. It helps to learn the safety roads signals. In includes 4 signs: Yield sign, No Entry of Vehicles sign, Stop sign and Pedestrian Crossing sign.

\*sizes are per unit\* \*illustrated only on one side\*

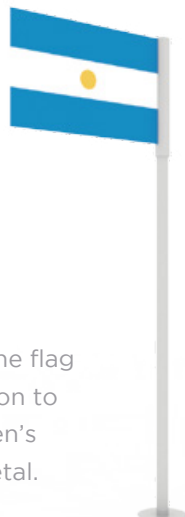

### Flagpole

• Art. 20061

2,9 m x 1 m x 0,1 m

## Flagpole

Flagpole with the Argentine flag hoisted. Decorative function to create a setting for children's themed parks. Made in metal.

### Road Safety Panel

• Art. 20062

1,2 m x 1 m x 0,1 m

## Road Safety Panel

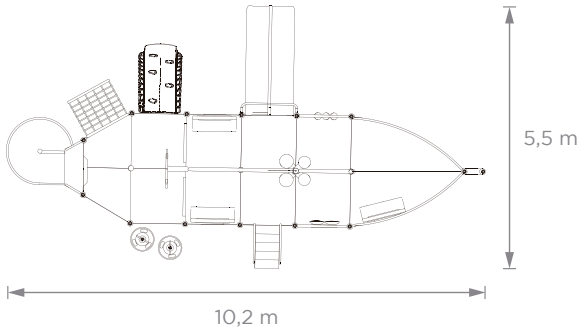

Infographic panel about road safety that teaches the different types and differences between preventive, regulatory and informative signs. It also advices on how to safely circulate on public roads.

# Themed children's games

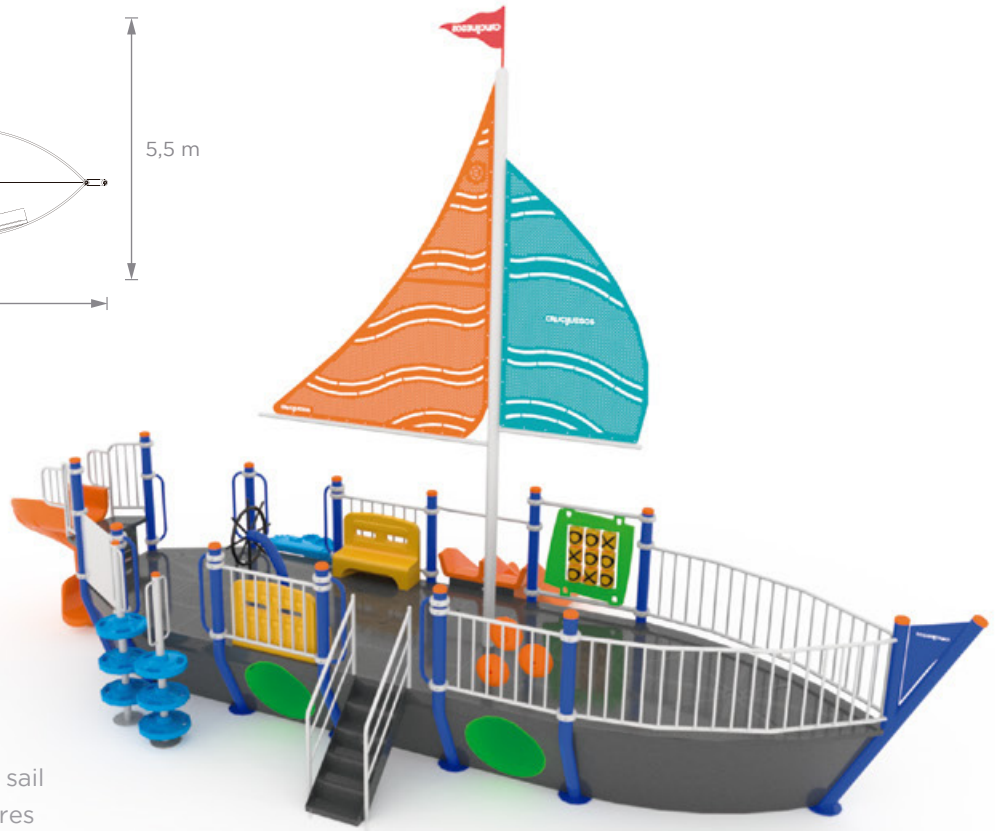

Children's games designed for recreational spaces

## Sail boat • Art. 20070

25 people  
ages 4 to 12

6,4 m x 5,5 m x 10,2 m

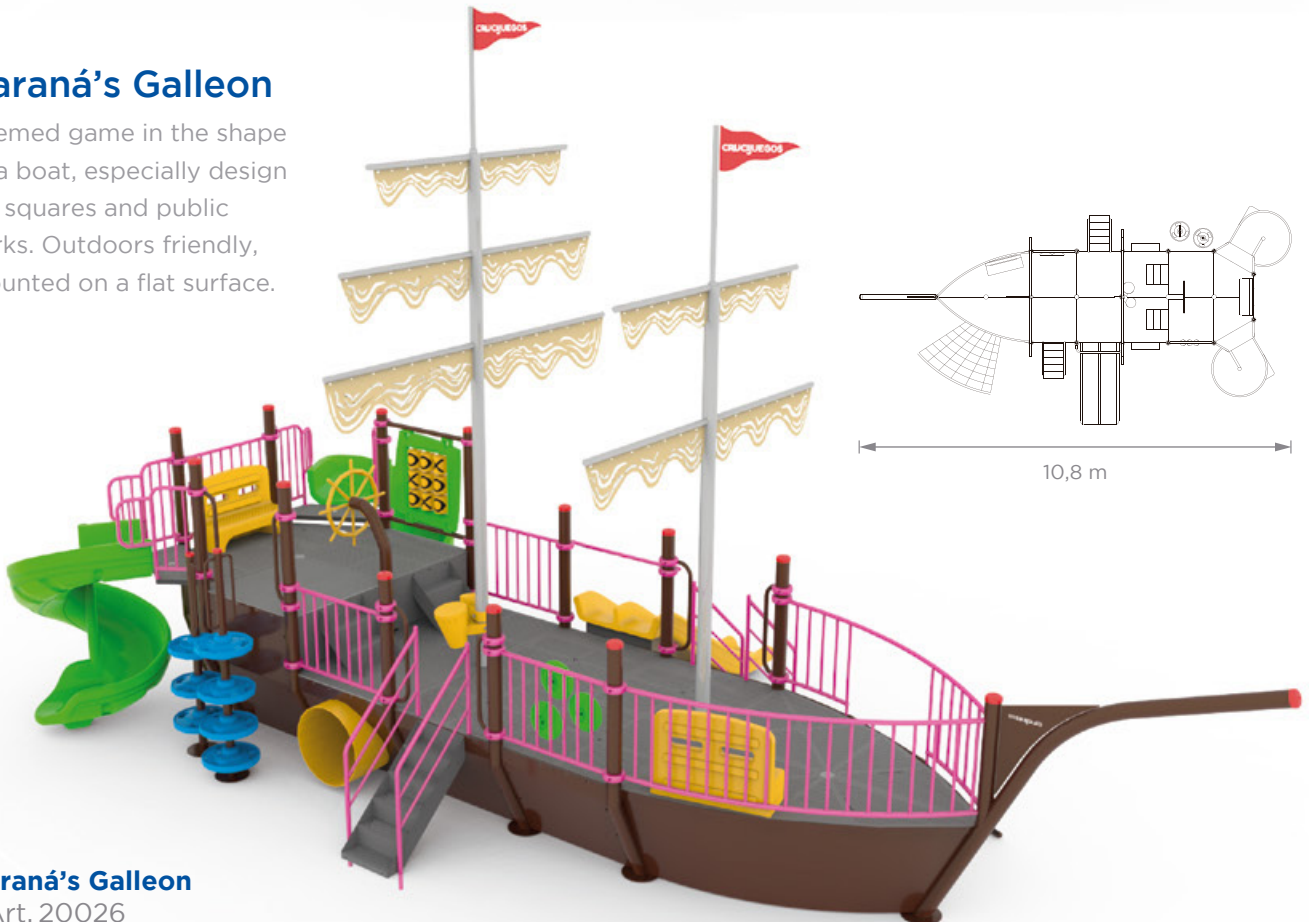

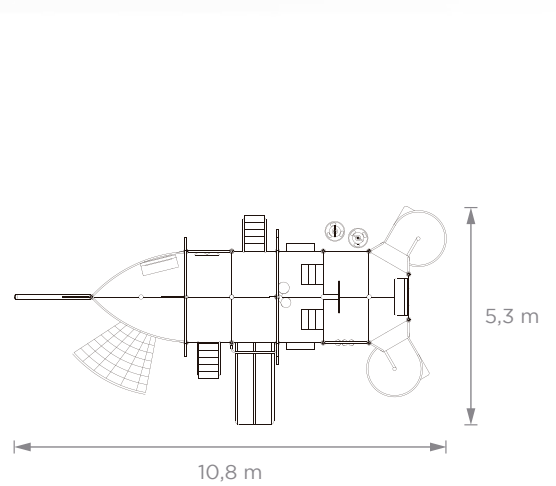

## Sail boat

Themed game in the shape of a sail boat, especially design for squares and public parks. Outdoors friendly, mounted on a flat surface.

## Paraná's Galleon

Themed game in the shape of a boat, especially design for squares and public parks. Outdoors friendly, mounted on a flat surface.

## Paraná's Galleon

• Art. 20026

25 people  
ages 4 to 12

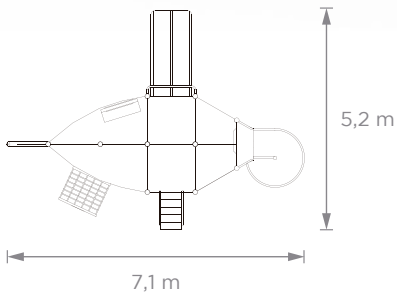

6,75 m x 5,3 m x 10,8 m

### Small Pirate Ship

12 people  
ages 4 to 12

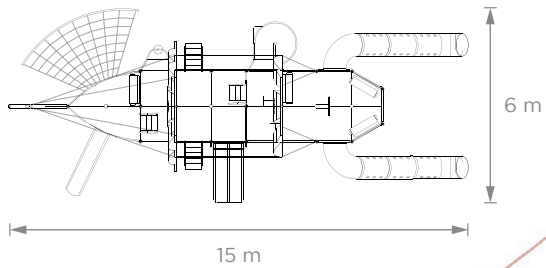

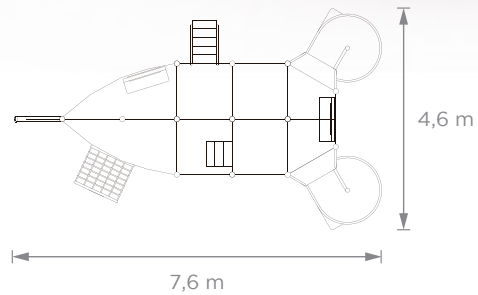

5,4 m x 7,1 m x 5,2 m

### Medium Pirate Ship

14 people  
ages 4 to 12

6 m x 4,6 m x 7,6 m

### Big Pirate Ship

28 people  
ages 4 to 12

7 m x 15 m x 6 m

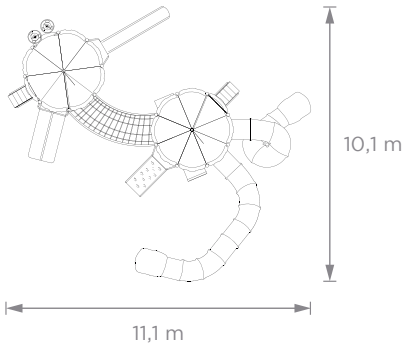

### Big Pirate Ship

Mangrullo in the shape of a big ship where children can play pirates. It has a crawling tunnel that goes from one side of the ship to the other. It can be accessed by huge climbing nets or stairs, and can be descended by going down slides of different heights and characteristics, and tube, roller, doubles or simple slides.

## Themed children's games

Children's games designed for recreational spaces

### Fort

Medieval fort themed game, with two octagonal towers connected by a rope bridge. Children can climb steps, go through the crawling tube, play with the themed memory panels and go up the huge towers. Then, they can glide down the slides of different heights, simple, double or double slides of great size.

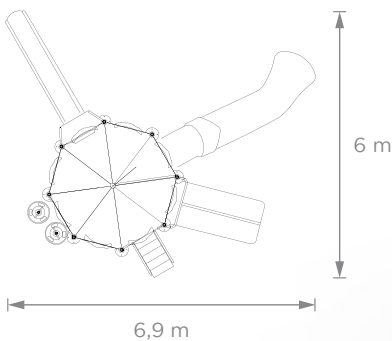

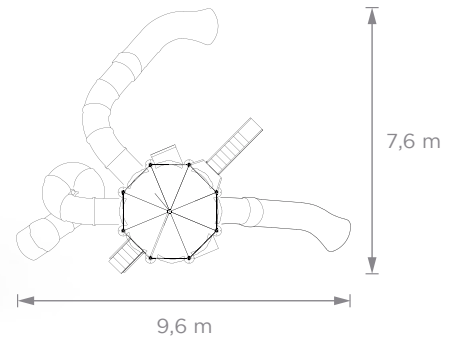

### Fort

18 people  
ages 4 to 12  6,6 m x 10,1 m x 11,1 m

### Medium Fort

13 people  
ages 4 to 12  6,6 m x 9,6 m x 7,6 m

### Small Fort

10 people  
ages 4 to 12  5,5 m x 6,9 m x 6 m

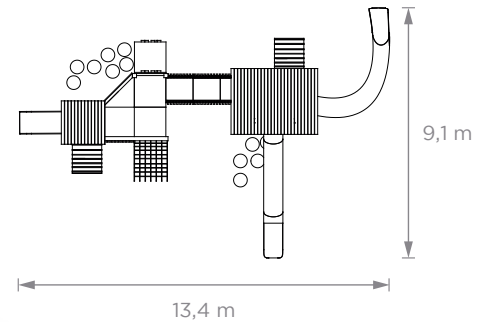

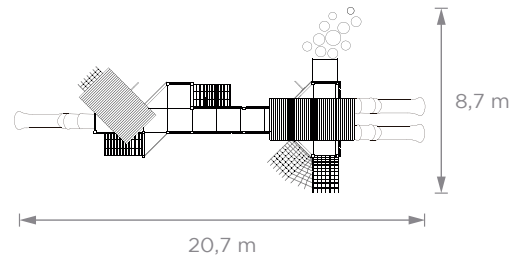

# Forest Refuge Line

New line of games inspired by wood cabins, where children can play and find refuge. Equipped with different game possibilities, it allows to use the interior spaces of the structure.

## Big Forest Refuge

ages 4 to 12 4,6 m x 20,7 m x 8,7 m

## Tower Forest Refuge

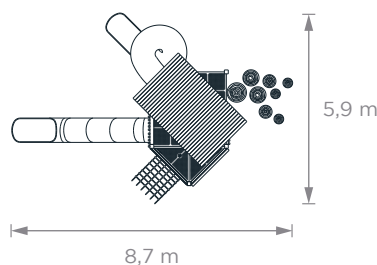

ages 4 to 12 5,2 m x 13,4 m x 9,1 m

The main characteristic of this line of products is the use of **100% recycled plastic**, transformed into wood-like boards in different shades. Therefore, this game is environmentally friendly. The slides are made in stainless steel, the best material for this type of outdoor game. It does not require maintenance and is easily cleaned..

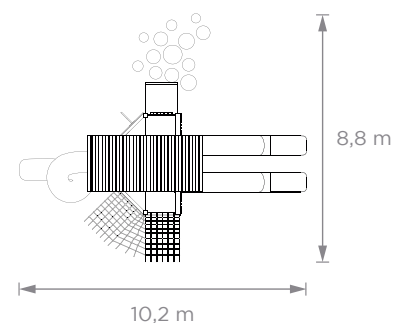

## Small Forest Refuge

ages 4 to 12 4,8 m x 8,7 m x 5,9 m

## Medium Forest Refuge

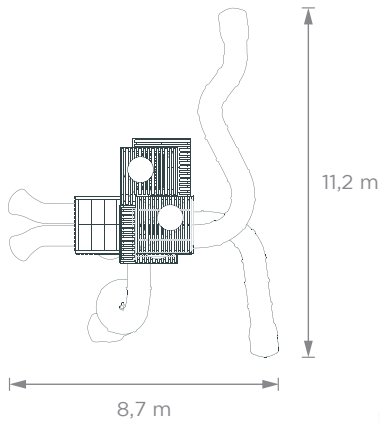

ages 4 to 12 4,8 m x 8,7 m x 5,9 m

## Themed children's games

Children's games designed for recreational spaces

### Big Cubes

18 people  
ages 4 to 12

11,2 m x 8,7 m x 5,7 m

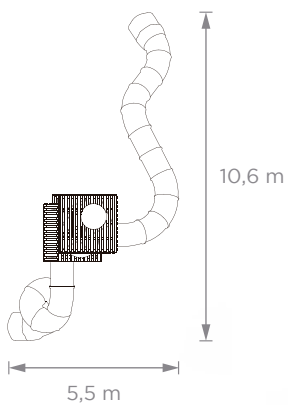

### Big Cubes

Themed game consisting of 6 oversized cubes where children can climb on the inside and then descend using the different-heights slides, according to the children ages. It has climbing ropes and a memory panel with themed signs.

### Medium Cubes

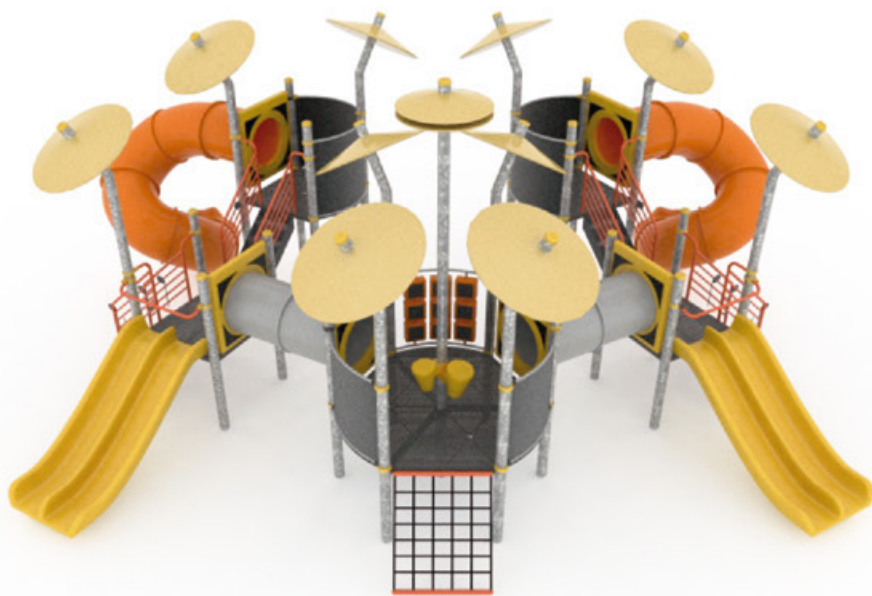

This themed game consists of 3 oversized cubes. Children can climb on the inside using ropes and nets, and slide using the different-heights slides.

### Medium Cubes

12 people  
ages 4 to 12

5,7 m x 5,5 m x 10,6 m

### Medium drums

18 people  
ages 4 to 12

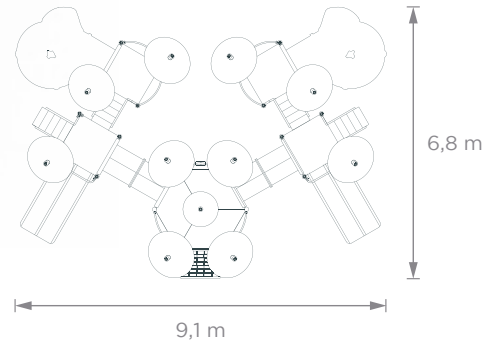

4,6 m x 9,1 m x 6,8 m

WORK IN PROGRESS

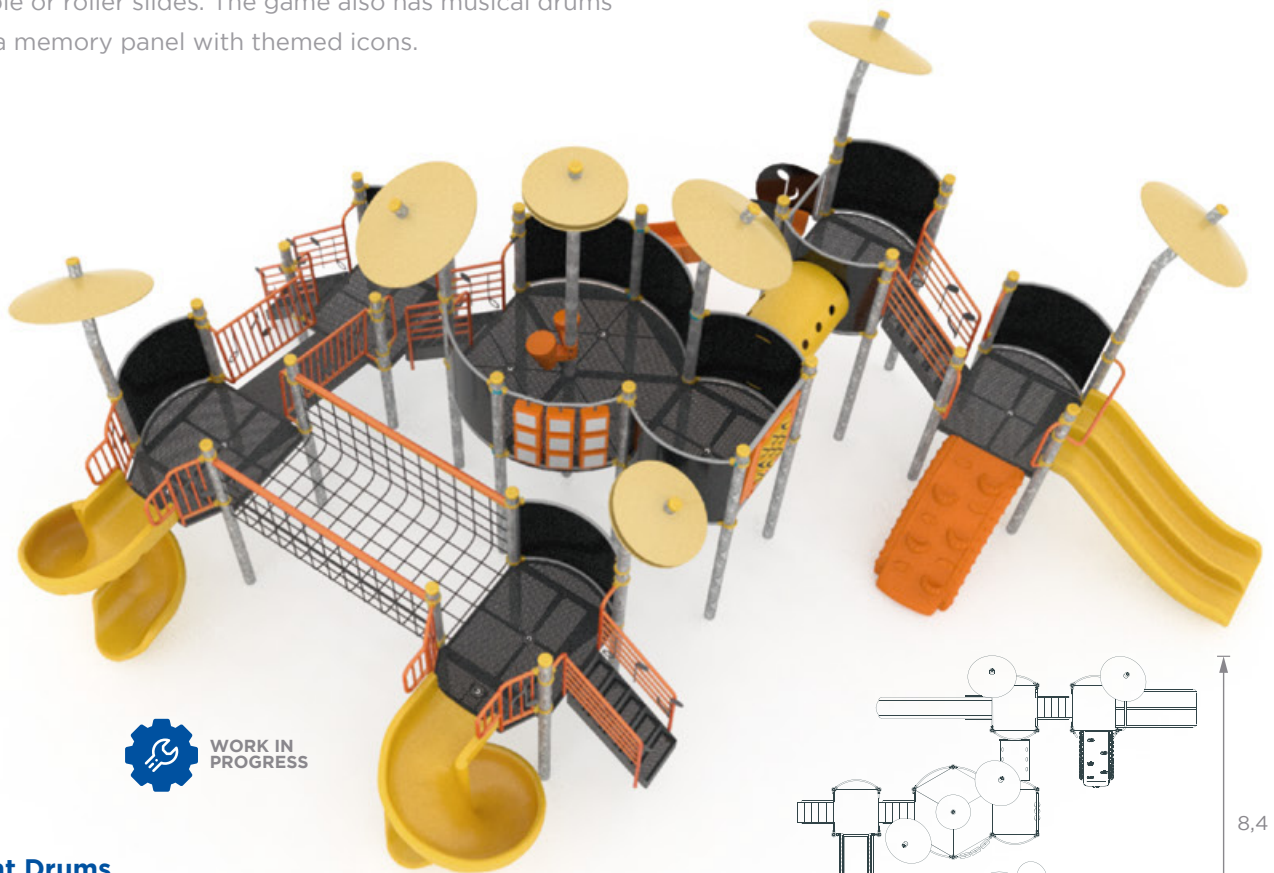

### Medium drums

Rock-themed Mangrullo with 5 towers of different heights, accessed by stairs and climbers. Inside, children can go from one tower to another through giant tubes and descend by going down the double slides or the extraordinary tube slides. The game also has drums and a memory panel with themed-Rock icons.

### Giant Drums

Rock-themed Mangrullo with 7 towers of different heights which can be accessed by stairs and climbing walls. The children can go from one tower to another through suspended tubes and descend by going down simple, double or roller slides. The game also has musical drums and a memory panel with themed icons.

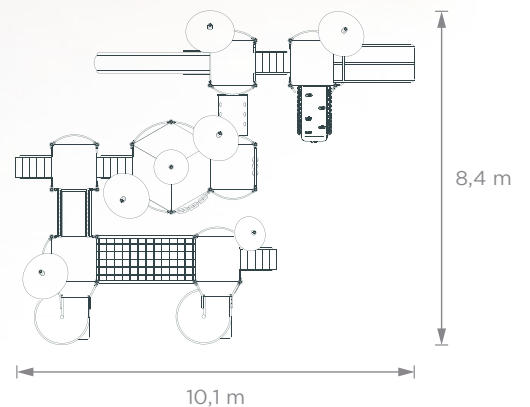

WORK IN PROGRESS

# Cutting-edge games

## Poly

8 people  
ages 4 to 12  2,1 m x 4,1 m x 3,6 m

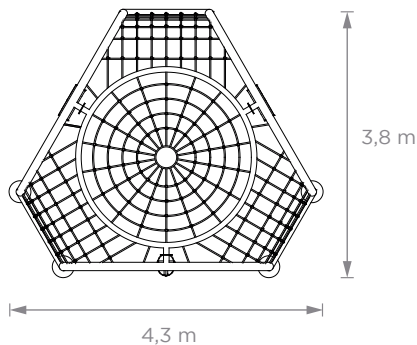

## Poly

Ideal for open spaces and children of all ages, allowing them to have fun in different ways. They can sit, hang, climb and swing. The metallic structure and the climbing webs create organic shapes that break the traditional and standard boundaries of children's games.

## Poly Mini

6 people  
ages 4 to 12  1,7 m x 4,3 m x 3,8 m

## Relay 1

In the first relay, children go through a net tunnel which allows them to develop their skills.

**Relay 1** • Art. 17101

2 people  
ages 4 to 12  1,5 m x 4 m x 4,3 m

## Relay 2

In the second relay, children jump from side to side, which allows them to develop their skills.

**Relay 2** • Art. 17102

2 people  
ages 4 to 12  0,6 m x 3,8 m x 3,7 m

# The Challenge

The Challenge has 7 relays with different difficulties where children can compete two by two, going through each challenge until reaching the finish line.

## Relay 3

In the third relay, children go through a shifting tunnel which allows them to develop their skills.

**Relay 3** • Art. 17103

2 people  
ages 4 to 12  2 m x 6 m x 3,5 m

## Relay 4

At the fourth relay, children climb through nets, which allows them to develop their skills.

**Relay 4** • Art. 17104

2 people  
ages 4 to 12  1,2 m x 2,8 m x 2,7 m

## Relay 5

At the fifth relay, children jump from side to side using the different-heights steps, which allows them to develop their skills.

**Relay 5** • Art. 17105

2 people  
ages 4 to 12  1 m x 4,4 m x 2,6 m

## Contract and warranty commitment

**We manufacture all parts and supplies, which allows us to offer the replacement and provision of them, even if a model is no longer on sale. This way, our games and equipments will always be functioning.**

S.R.L manufactures all its game lines according to IRAM Norms 3655, 3583, UNE 1176 and 1177, regarding quality and construction. We are the only company in the country and field to have the IRAM ISO 9001 certification.

### POST-SALE WARRANTY AND SERVICE

#### Limited warranty of the product

Subject to limitations, exclusions, and established provisions in this document, Crucijuegos® Insumos Públicos S.R.L guarantees its products, under normal use and adequate maintenance, as follows:

**Crucijuegos® Insumos Públicos S.R.L** provides its clients with a one-year warranty since its delivery and installation of the goods specified in the official purchase order or commercial invoice in:

- › All main rigid games with plastic structure, steel and vinyl-coated components against structural failure caused by corrosion, and material and labour defects.
- › Steel frames against material and labour defects
- › All coated-steel rope and steel cables against structural load failures caused by corrosion, material and handiwork defects.
- › Polyethylene slides, closets, main structure, tires and plastic components against material defects and handiworks.

**Crucijuegos® Insumos Públicos S.R.L** agrees to repair the defective product free of charge, during the validity period of the warranty, if it became faulty under normal use and in accordance with the specifications in this document.

The original buyer and the subsequent acquires are beneficiaries of this warranty, provided that they possess the Certificate of Warranty corresponding with the acquired product, where the date of purchase must be stated.

The extended warranty coverage cannot be alleged by the buyer, nullifying set forth therein, in the following cases:

- › The wrongful installation of the product.
- › Incorrect use or other than the intended use, the misuse or inadequate use that generate damage to the items.
- › Normal wear damage.
- › Poor maintenance.
- › Alteration; inadequate repair; negligence; misuse or vandalism; severe weather and natural disaster.

#### We will always be there.

Crucijuegos® Insumos Públicos S.R.L guarantees the fabrication and provision for a 10-years period regarding spare parts and components of the different items acquired by the clients, specified in the official purchase order or commercial invoice.

The repairs or replacement of the product may take place with reconditioned spare parts, which function is equivalent to the original parts, guaranteeing a product that meets, in any case, the optimal conditions necessary for its normal use. The repaired or replaced product will be under warranty for the remaining time of the original warranty, or for 90 days since the date of repairment or replacement, whichever is higher.

In the case where parts and/or imported parts are needed, if it is not possible to make repairs, the time of reparation will depend on the norms and mandatory periods of importation.

This certificate annuls any other explicit or implicit warranty. Crucijuegos® Insumos Públicos S.R.L does not authorize any other person, company, or partnership to assume, on our behalf, any other responsibility regarding our products.

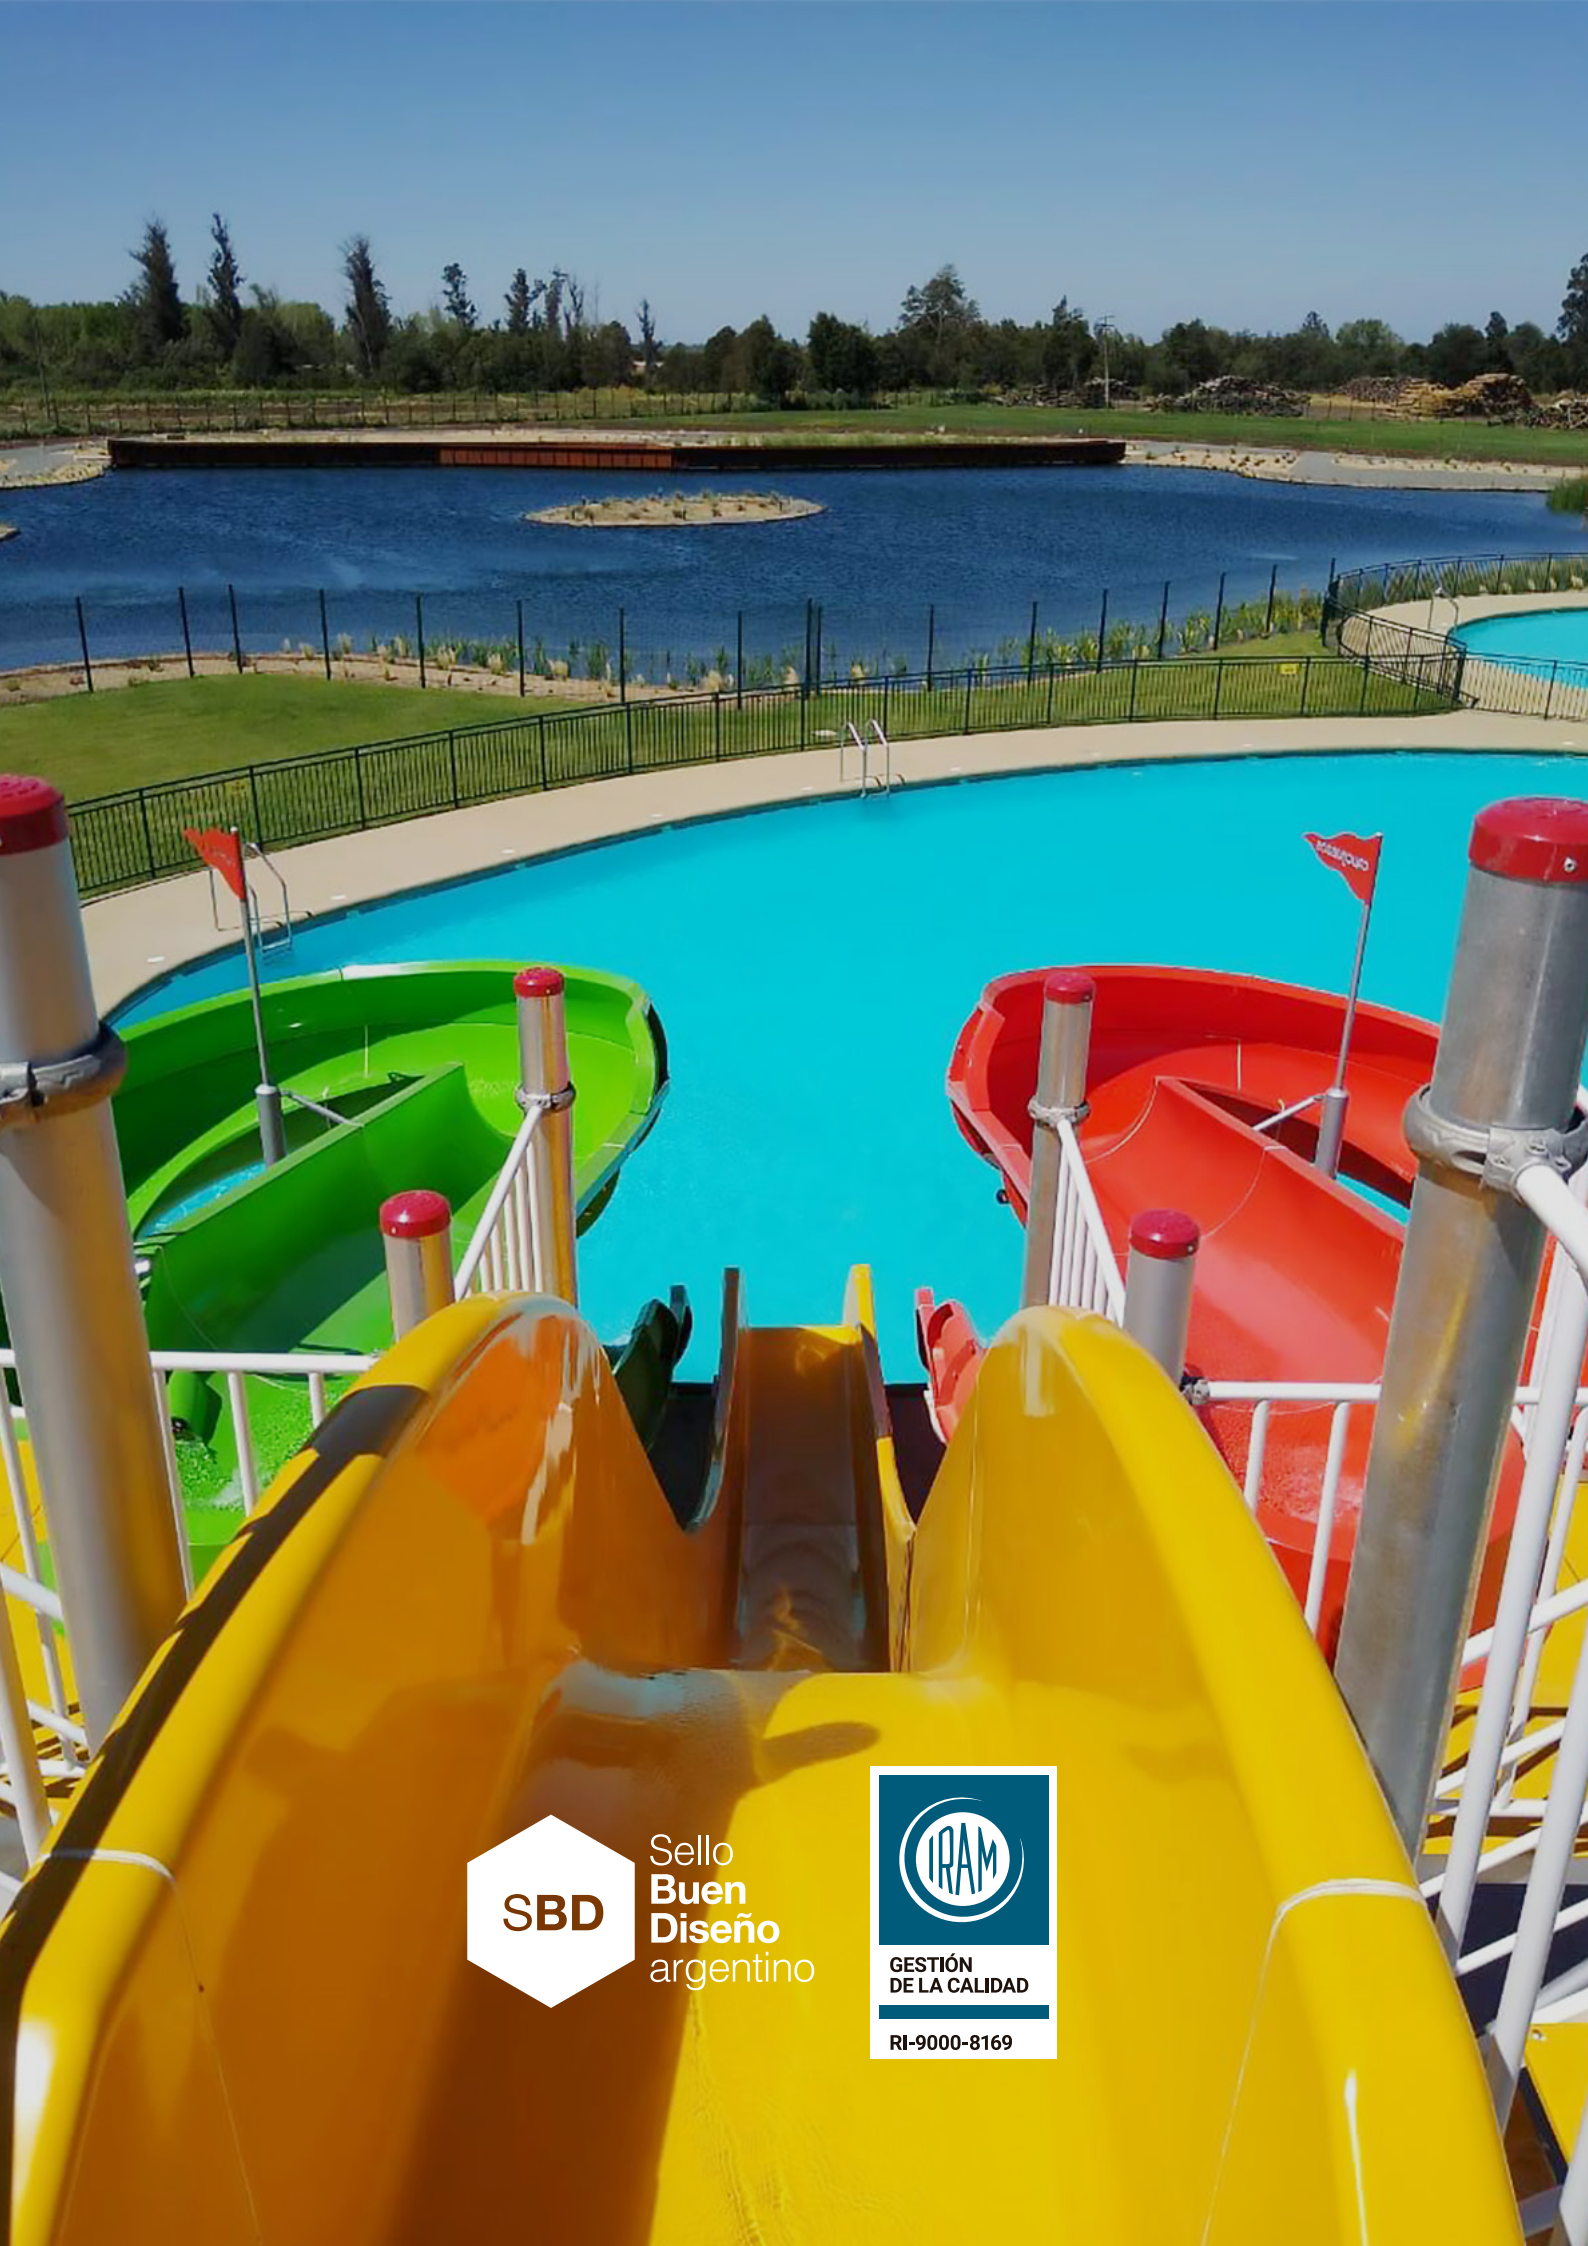

Crucijuegos® Insumos Públicos S.R.L, independently of the warranty, may offer a local maintenance, which can be billed according to the repaired carried out, monthly or fixed, including parts and repairment expenses.

All warranty claims of the coverage products that occur within the submitted warranty within thirty (30) days from the discovery of the alleged defect must include a detail description and photographs of the alleged defect or problem. Warranty claims must be addressed to:
